

Grant Application for funding for the purchase of an Emergency Water Pump

Recognizing the reality of a changing environment, where fire has become an ever-present danger, the nature of our lakes with their many islands and cottages that are not accessible by road, and the challenge for the fire department to respond in a timely manner the Greater Bobs and Crow Lakes Association and the Bobs and Crow Lakes Foundation are pleased to offer this opportunity for members of our lake communities to purchase and maintain a water pump for their properties. In the year 2026, SIX groups will be selected to host a fire pump in their neighbourhood. Each group will receive a grant of \$1500 towards the purchase of a fire pump.
